

VidyaFlow Connect
Complete School Management System

SCHOOL MANAGEMENT SYSTEM & ADMIN PORTAL

Run your entire school from one admin portal

VidyaFlow Connect brings admissions, attendance, fees, exams and timetable into a single dashboard — with dedicated Teacher, Student, Parent and Driver apps that keep every role connected in real time.

- Admissions to results
- 4 role-based mobile apps
- Fees & online payments
- Cloud-hosted

WHAT IS VIDYAFLOW CONNECT

The admin portal that runs your whole school

One secure, cloud-hosted platform for administrators, teachers, parents and students — no more juggling registers, spreadsheets and chat groups.

01 One dashboard for the whole campus

Admissions, attendance, fees, exams and timetable — all managed from a single admin portal.

02 Role-based logins

Separate, secure views for administrators, teachers, parents and students — everyone sees exactly what they need.

03 Real-time updates

Attendance, results, fees and notices reach parents the moment they happen — no follow-up calls.

04 Cloud-hosted, always on

Runs on any device with automatic backups and zero on-premise servers to maintain.

BUILT FOR EVERY ROLE

Four people, one connected platform

A

Administrators

Full control of students, staff, fees, exams and reports from one console.

T

Teachers

Mark attendance, set homework, enter marks and message parents from the Teachers App.

P

Parents

Follow attendance, fees, results and school updates live on the Parent App.

S

Students

Timetable, homework, online tests and progress — all in one place.

WHY VIDYAFLOW CONNECT

Why schools switch — and stay

Thoughtful design, reliable technology, and support that treats your school like a partner, not a ticket number.

All-in-one platform

Students, staff, fees, exams, timetable and more — no more juggling five different tools.

Secure & reliable

Role-based access, encrypted data, and a platform built for the scale of your school.

Insightful reports

Attendance, fees, and academic reports that turn data into decisions in a click.

Mobile-first apps

Native experiences for teachers, students and parents keep everyone connected on the go.

Human support

Onboarding help and responsive support so your team is productive from day one.

Cloud-based

Access from anywhere, automatic updates, and zero on-premise maintenance.

The whole school, in your pocket

Dedicated Teacher, Student, Parent and Driver apps keep everyone connected in real time — powered by the same admin portal, so nothing is entered twice.

- Instant notifications
- Pay fees in a tap
- Homework & timetable

OUR PURPOSE

Built with a mission, driven by a vision

Our Mission

To put an affordable, all-in-one admin portal in the hands of every school — so running a campus is simple, not stressful.

- Replace scattered registers, spreadsheets and chat groups with one connected portal.
- Give admins, teachers, parents and students the right view through secure role-based logins.
- Save hours of daily paperwork so staff can focus on teaching, not admin.

Our Vision

A future where every school — big or small, city or village — runs effortlessly on technology.

- Make quality school-management software accessible to every institution in India.
- Let technology quietly handle operations while educators focus on students.
- Be the most trusted school platform for administrators, teachers and parents.

CORE VALUES

What guides every decision we make

Student-first

Every module is designed around better outcomes for students.

Simple to adopt

Clean, intuitive workflows your staff can learn in a single day.

Secure by design

Role-based access and encrypted data keep school records safe.

Real support

A responsive team that partners with your school for the long run.

TRUSTED FOR WHAT IT DELIVERS

Built to be trusted with school data

Made for Indian schools

Works for K-12 schools across CBSE, ICSE, state and international boards — adapts to your fee structure, grading and timetable.

Secure by design

Role-based access with encrypted, cloud-hosted data and automatic backups — every user sees only what they should.

A team, not a ticket queue

Hands-on onboarding and responsive support so your staff are productive from day one.
